

AMENDMENTS TO THE DRAWINGS

Replace the original drawings containing Figures 1- 4.6 with the accompanying Replacement Sheets containing the same figures.

In the Replacement Sheets, the drawings have been revised to substitute English-language phrases for French phrases in Figures 3.1a, 3.1b and 3.2a. In Figures 3.2b through 4.6, references to the specific secret or function, e.g. S2 or S3, have been added to the phrases "Presentation of Secret" or "Function Required", to conform with the drawings as they originally appeared in the PCT application.
